

K-LOVE is a strong Christian influence in our community. They provide good family friendly music, news and information. They keep us up to date with issues that are going on in both the world and our community. K-LOVE's programing would be greatly missed if it were displaced by an LPFM broadcaster providing other programing. There are only a couple of Christian stations in our area and the signals on these stations are not usually that strong, making it harder to have a static free station with a strong signal.
